Important information

NOT FOR RELEASE, PUBLICATION OR DISTRIBUTION, DIRECTLY OR INDIRECTLY, IN OR INTO, THE UNITED STATES, AUSTRALIA, THE REPUBLIC OF SOUTH AFRICA, CANADA OR JAPAN OR ANY OTHER JURISDICTION WHERE TO DO SO MIGHT CONSTITUTE A VIOLATION OF THE RELEVANT LAWS OR REGULATIONS OF SUCH JURISDICTION

Neither this document nor the accompanying presentation (together, the **Presentation**) is being made in connection with any offer of securities of any description or for release, publication or distribution, directly or indirectly, in or into the United States, Australia, the Republic of South Africa, Canada or Japan or any other jurisdiction where to do so might constitute a violation of the relevant laws or regulations of such jurisdiction. The ordinary shares of BBGI (defined below) (the Shares) have not been and will not be registered under the relevant securities laws of any such excluded territory. Shares may not be offered or sold in the United States, Australia, the Republic of South Africa, Canada or Japan or to, or for the account or benefit of, any national, resident or citizen of the United States, Australia, Canada, Japan or the Republic of South Africa or any other jurisdiction where to do so might constitute a violation of the relevant laws or regulations of such jurisdiction. This Presentation is directed only at: (a) Professional Investors (as defined for the purposes of the EU Alternative Investment Fund Managers Directive) in both Luxembourg and the UK; and (b) also in the UK to: (i) persons having professional experience in matters relating to investments who fall within the definition of "investment professionals" in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005; or (ii) high net worth bodies corporate, unincorporated associations and partnerships and trustees of high value trusts as described in Article 49(2) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 and persons who receive this Presentation who do not fall within (a) or (b) above should not rely on or act upon this Presentation.

This Presentation has been prepared and issued by BBGI SICAV S.A. (**BBGI**). The information in this Presentation is not and does not purport to be complete and is subject to change. This Presentation should not be taken as an inducement to engage in any investment activity and is for the purpose of providing information about BBGI. By being in receipt of this Presentation, you will be deemed to have: (a) agreed to all of the following restrictions and made the following undertakings; and (b) acknowledged that you understand the legal and regulatory sanctions attached to the misuse, disclosure or improper circulation of this Presentation.

This Presentation does not constitute or form part of any offer or invitation to sell, or any solicitation of any offer to purchase or subscribe for any Shares or any other securities nor shall it (or any part of it) or the fact of its distribution, form the basis of, or be relied on in connection with, any contract. The distribution of this Presentation and other information in connection with BBGI in certain jurisdictions may be restricted by law and persons into whose possession any document or other information referred to herein comes should inform themselves about, and observe, any such restrictions. Any failure to comply with these restrictions may constitute a violation of the securities laws of any such jurisdiction.

Shares have not been and will not be registered under the US Securities Act of 1933, as amended (the **Securities Act**), or with any securities regulatory authority of any state or other jurisdiction of the United States. Shares may not be offered, sold, resold, pledged, delivered, distributed or otherwise transferred, directly or indirectly, into or within the United States, or to, or for the account or benefit of, US persons (as defined in Regulation S under the Securities Act). No public offering of Shares is being made in the United States. BBGI has not been and will not be registered under the US Investment Company Act of 1940, as amended (the **Investment Company Act**) and, as such, holders of Shares will not be entitled to the benefits of the Investment Company Act. No offer, sale, resale, pledge, delivery, distribution or transfer of Shares may be made except under circumstances that will not result in the Company being required to register as an investment company under the Investment Company Act. Neither the U.S. Securities and Exchange Commission (the **SEC**) nor any state securities commission has approved or disapproved of the Shares or passed upon or endorsed the merits of the offering of the Shares. Any representation to the contrary is a criminal offence in the United States. In addition, Shares are subject to restrictions on transferability and resale in certain jurisdictions and may not be transferred or resold except as permitted under applicable securities laws and regulations. Investors may be required to bear the financial risks of their investment in Shares for an indefinite period of time. Any failure to comply with these restrictions may constitute a violation of the securities laws of any such jurisdictions.

BBGI Results Presentation

Highlights

Investment proposition

BBGI is a global infrastructure investor with a prudent, low-risk investment strategy focused on delivering long-term, predictable shareholder returns

Strategic pillars	Investment strategy	Target outcomes
Low risk ¹	Pure-play PPP investment platform Availability-based investment strategy with a principal focus on lower risk roads and bridges	Stable, predictable cash flows Secure, highly visible, contracted public sector revenues No demand or regulatory ² risk exposure
Globally diversified	Focused exposure to highly-rated investment grade countries Stable, well developed operating environments	UK / Europe North America Australia
Internally managed	In-house management team, focused on delivering shareholder value Incentivised by shareholder returns and NAV per share growth	No NAV based management or acquisition fees Aligned interest resulting in full pricing discipline Lowest comparative ongoing charges ³

¹References to "low risk" throughout this presentation are made in comparison to other equity infrastructure asset classes.

²References to regulatory risk assets throughout this report means assets which are subject to regulator or regulatory pricing reviews.

³In comparison to the latest publically available information for all LSE-listed equity infrastructure companies.

Financial highlights

Net asset value¹

£858.1m

Dec 2018: £774.5m
(+10.8%)

Annual shareholder return⁴

10.4%

FY 2018: 11.2%

Annualised ongoing charges⁵

0.89%

FY 2018: 0.93%

¹On an investment basis.

²This is a target/guidance only and is not a profit forecast. There can be no assurance that this target/guidance will be met or that the Company will make any distributions at all.

³Net operating cash flows / cash dividends paid for the period (see detailed explanation in interim report).

⁴On a compound annual growth rate basis. This represents the steady state annual growth rate based on share price at 30 June 2019 and after adding back dividends paid or declared since IPO in December 2011.

⁵Annualised estimate based on projected recurring costs. Calculated using the AIC methodology and excludes all non-recurring costs. The Ongoing Charges include an accrual for the Short-Term Incentive Plan/Bonuses and the Long-Term Incentive Plan.

Portfolio highlights

Stable operational performance	<ul style="list-style-type: none"> • Diversified global portfolio of 48 high-quality, availability-based PPP infrastructure assets • Portfolio performance and cash receipts in line with business plan
Value-driven active asset management	<ul style="list-style-type: none"> • Further de-risking of assets, including Stanton Territorial Hospital which became fully operational • Value enhancements achieved through active management resulting in 0.5 per cent increase in NAV
Prudent financial management	<ul style="list-style-type: none"> • Accretive £75 million equity capital raise, over-subscribed by new and existing investors in June 2019 • Hedging strategy aimed to reduce FX sensitivity of NAV to c. 3% for a 10% movement in FX • Net cash position of £20 million on an investment basis
Selective acquisition strategy	<ul style="list-style-type: none"> • Selective acquisition strategy for H1 2019 via accretive additional follow-on equity stakes • Total value of additional road and bridge investments in Netherlands and US approximately £57.4 million
Strong, visible pipeline	<ul style="list-style-type: none"> • Attractive global pipeline of availability-based assets in highly-rated investment grade countries • North American strategic investment partnership provides additional investment opportunities in availability-based PPP assets via right of first offer
Long-term custodianship	<ul style="list-style-type: none"> • Responsible, long-term investor in public infrastructure assets with strong relationships with all significant stakeholders • Signatory to the United Nations Principles for Responsible Investment

Projected portfolio cash flow

Stable, predictable returns¹

Long-term stable cash flows

Government or government-backed counterparties and contracted nature of long-term cash flows increase predictability

Index-linked provisions provide positive inflation linkage of approx. 0.5%

¹ This illustrative chart is a target only, as at 30 June 2019, and is not a profit forecast. There can be no assurance that this target will be met. The hypothetical target cash flows do not take into account any unforeseen costs, expenses or other factors which may affect the portfolio assets and therefore the impact on the cash flows to the Company. As such, the graph above should not, in any way, be construed as forecasting the actual cash flows or actual returns from the portfolio.

Summary of cash flow

(£ million)	Period ended 30 June 2019	Period ended 30 June 2018
Cash and cash equivalents at 1 January	10.4	20.7
Distributions from investments ¹	33.4	32.5
Operating costs	(6.6)	(8.3)
Net operating cash flows	25.0	24.2
Equity investments	(57.4)	(54.7)
Proceeds from drawdowns	60.7	87.2
Net proceeds of capital raise	73.9	59.8
Dividends paid	(19.4)	(12.7)
Repayment of loans and borrowings ²	(10.5)	(11.7)
Impact of FX gain/(loss) on cash and cash equivalents	0.7	0.4
Cash and cash equivalents at 30 June	83.4	113.2
Ongoing charges³	0.89%	0.96%
Cash dividend cover⁴	1.3x	1.9x

Strong cash receipts of £33.4m¹ from investments in the period ended 30 June 2019 (30 June 2018: £32.5m)

Strong cash dividend cover of 1.3x (30 June 2018: 1.9x)

Cash position reduced to £10.1m after repaying the revolving credit facility on 12 August 2019

¹ Gross of withholding tax; this includes £1.8m of cash received by non-consolidated group companies.

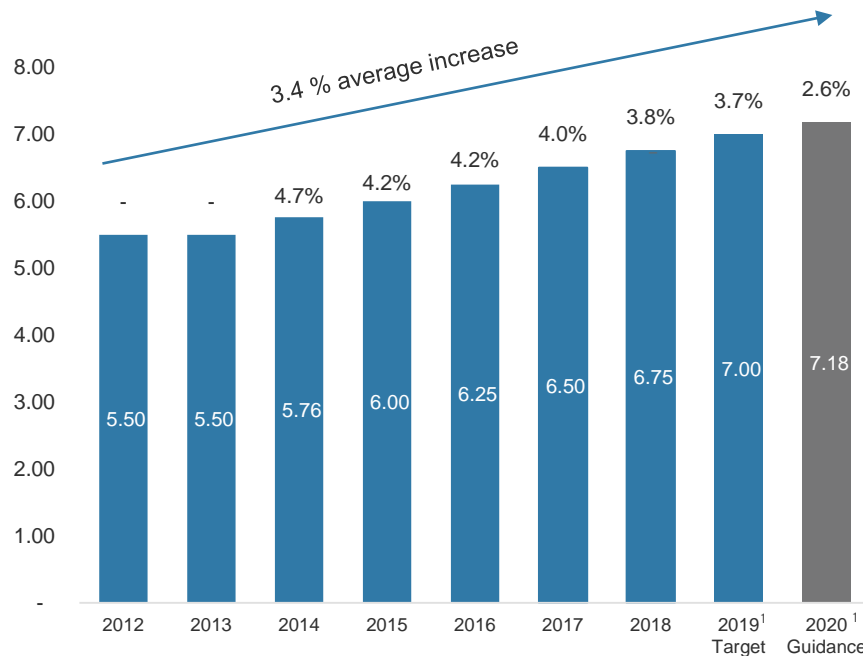

² Net of issue costs.

³ Annualised estimate based on projected recurring costs.

⁴ Net operating cash flows / cash dividends paid for the period (see detailed explanation in interim report).

Dividend growth and ongoing charge

Dividends (pence per share)

Competitive ongoing charges (as a % of NAV)

Average dividend increase of 3.4% from 2012 to 2020

FY 2020 dividend guidance of 7.18pps, up 2.6%.

Ongoing charges have steadily decreased since IPO

Lowest comparative ongoing charges among the industry²

¹This is a target/guidance only and is not a profit forecast. There can be no assurance that this target/guidance will be met or that the Company will make any distribution at all.

²In comparison to the latest publicly available information for all LSE-listed equity infrastructure companies as of 31 December 2018.

³Annualised estimate based on projected recurring costs.

Return track record

BBGI Total Shareholder Return

Total Shareholder Return¹ (TSR) since IPO of 110.9%

Annual shareholder return since IPO in December 2011 of 10.4%²

4.6% accounting return per share for the six months ended 30 June 2019³

BBGI share price and NAV per share

Reliable, attractive dividend yield of 4.4%⁴

Low five year correlation of 23% and a beta of 0.21; last 12 months a correlation of 30% and a beta of 0.37

From IPO, BBGI has constantly traded at a premium to NAV, amounting in average to 12.3% (at June 19: 11.6%).

Sources: Datastream

¹Based on share price at 30 June 2019 and after adding back dividends paid or declared since IPO in December 2011.

²On a compound annual growth rate basis. This represents the steady state annual growth rate based on share price at 30 June 2019 and after adding back dividends paid or declared since IPO in December 2011.

³Based on NAV per share growth and dividend paid.

¹ When a project has more than one FM contractor and/or O&M contractor the exposure is allocated equally among the contractors.

BBGI Results Presentation

Active asset management

Active asset management

<p>Portfolio performance</p>	<ul style="list-style-type: none"> • Portfolio performance and cash receipts in line with business plan • No material lock-ups or defaults in the portfolio • Maintained high level of asset availability of c. 99.7%¹ with deductions either borne by third-party facility managers and road operators, or part of planned (lifecycle) budgets
<p>Construction de-risking</p>	<ul style="list-style-type: none"> • As at 30 June 2019, 100% of the assets were operational and further de-risking of assets in ramp up phase led to a NAV uplift of 0.2% <ul style="list-style-type: none"> • Stanton Territorial Hospital (CAN): construction completed in H2 2018, moved to ramp-up phase • Mersey Gateway Bridge (UK): moving closer to stable operation
<p>Strong relationships</p>	<ul style="list-style-type: none"> • Successfully maintained good dialogues and relationships with public sector clients • No material counterparty issues to report at subcontractor level
<p>SNC-Lavalin Partnership</p>	<ul style="list-style-type: none"> • All assets are performing in line with expectations • Canada viewed as a stable, reliable and well developed operating environment • SNC-Lavalin has a market capitalisation of approximately CAD 2.8 billion² • Strong Pipeline – further details in markets section
<p>Long-term custodianship</p>	<ul style="list-style-type: none"> • BBGi has become a signatory to the UNPRI with a commitment as a long-term investor in public infrastructure assets to strong relationships with all significant stakeholders • Value-driven active asset management and prudent financial management drives long-term, responsible ownership of public infrastructure assets

¹Calculated as percentage of actual availability payments received divided by scheduled payments.

²As of 28 August 2019.

BBGI Results Presentation

Valuation

Portfolio value movement

Active asset management delivers accretive value enhancements

10.8% NAV increase

Financial: 10.3% NAV increase

- +0.6%: FX and macroeconomic impact
- +0.7%: reduction in market discount rate
- +3.4%: discount rate unwinding
- +5.6%: Other financial impacts: change in other net assets/liabilities, including one share issue, distributions and two acquisitions

Operational: 0.5% NAV increase

Net effect of value accretive enhancements across the portfolio through active management, which include amongst others:

- Enhanced operational performance through active asset management
- Net effect of updated realised or projected O&M, insurance, lifecycle, and other Project Company costs
- Net valuation effect from adjusting risk premium reflected in specific asset discount rates
- Net effect of inflation

¹This consists of the purchase prices paid for the interests in A1/A6 Motorway and Ohio River Bridge.

²While distributions from assets reduce the portfolio value, there is no impact on the Company's NAV as the effect of the reduction in the portfolio value (investments at fair value through profit or loss) is offset by the receipt of cash (cash and cash equivalents) at the consolidated Group level. Distributions are shown net of withholding tax.

³The result from balance sheet hedging is recorded at the consolidated Group level and does not impact portfolio value. During the year, the Company recorded a loss of £2.2 million on balance sheet foreign exchange hedging contracts entered into in November 2018.

Discount rates

Significant risk premium above risk free rate

Weighted average discount rate of 7.10% at 30 June 2019 (31 December 2018: 7.20%)

BBGi individual asset discount rates range between 6.70% and 9.00%

The decrease in BBGi's weighted average discount rate is a result of market observations and further asset de-risking

Discount rates in the secondary market continue to be very competitive, as a result of high investment demand in the social and transport PPP infrastructure sector

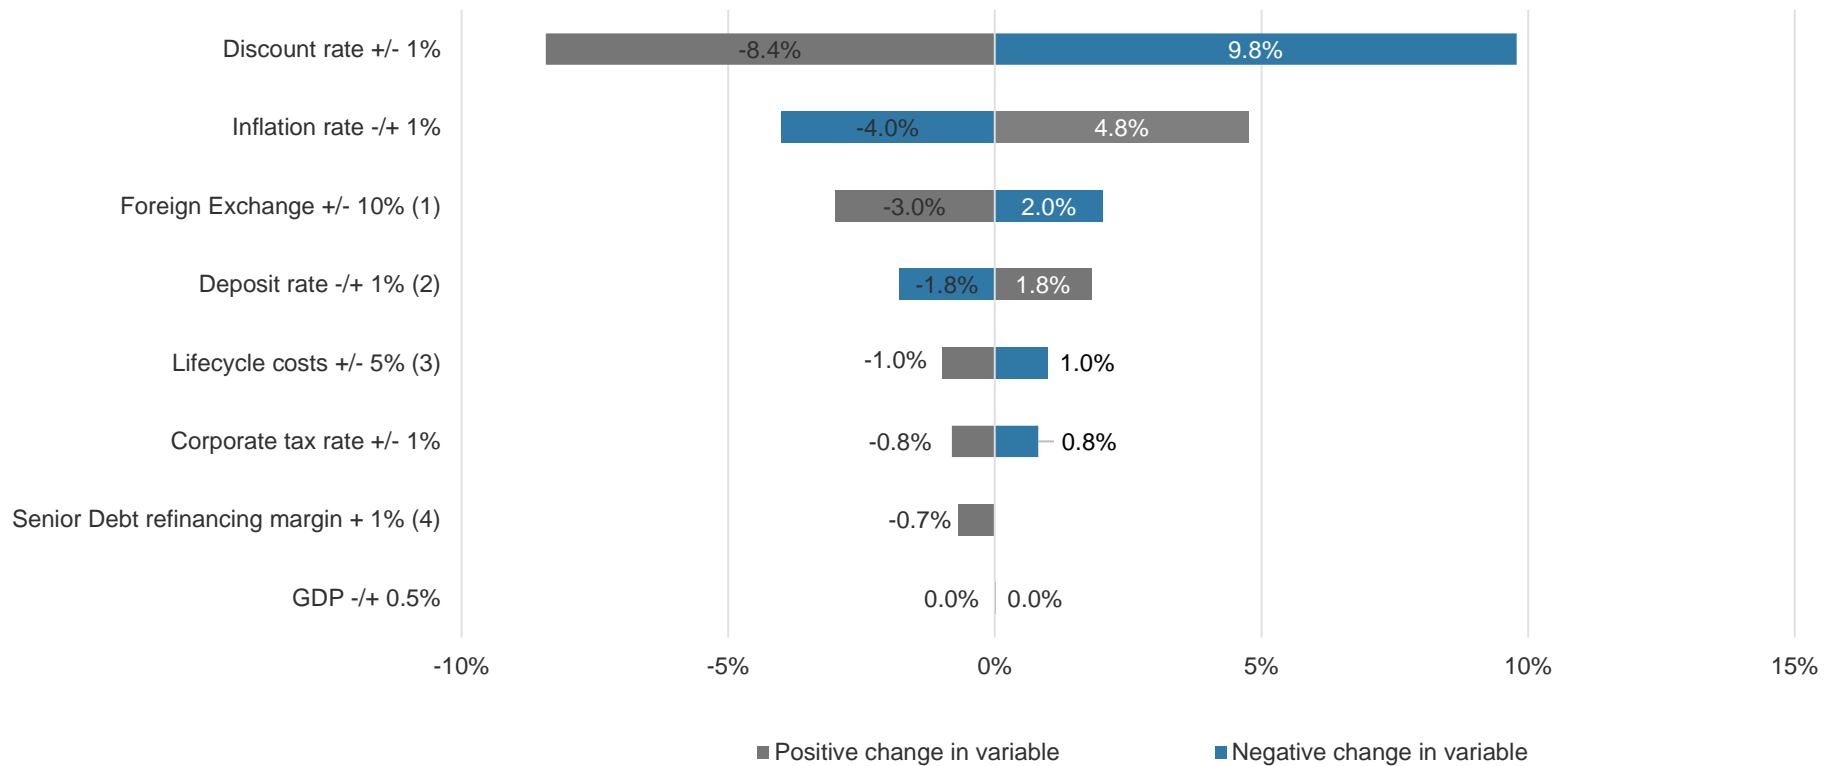

Average discount rates similar to 2007 but risk premium significantly increased from 2.7% to 5.6%

¹Sector average from listed peers (HICL and INPP) from June 2007 until June 2011 and from December 2011 BBGi discount rate.

²Both Sector and BBGi weighted average risk free rate estimates are based on the geographical breakdown of BBGi portfolio as at 30 June 2019.

Key sensitivities

Expressed as a % of NAV

¹Taking into account the contractual and natural hedges in place (see hedging strategy in interim report).

²Applied to the long-term rates in comparison to the macroeconomic assumptions.

³Applied to assets where Project Company retains the lifecycle risk.

⁴The Northern Territory Secure Facility asset is the only asset in the BBGi portfolio carrying refinancing risk. The base rate for senior debt is either fixed or a long term interest swap is available with the effect that none of our assets are subject to changes in base rates.

Risk management

Foreign exchange and hedging

Target to limit NAV sensitivity to FX to 3% for a 10% adverse FX movement¹

Natural hedge for EUR denominated income

Majority of BBGI's running costs are paid in EUR

Balance sheet hedging through FX forward contracts

Enter into one-year FX forward contracts to partially hedge non-GBP/EUR portfolio values

BBGi | INVESTING IN GLOBAL
INFRASTRUCTURE

Continued mitigation of
FX rate risk

Hedging of forecast portfolio distributions

Four-year hedging policy for non-GBP/EUR portfolio distributions reducing risk of adverse currency movements on target dividends

Borrowing in non-GBP

Multi currency revolving credit facility permits borrowing in the currency of the underlying asset creating a natural hedge

¹Based on portfolio composition on the date the balance sheet hedge contracts are entered into.

Risk management

General

Taxation	<ul style="list-style-type: none"> • Impact of change in global international tax environment – including BEPS – being monitored constantly • Our globally diversified portfolio of assets reduces the tax concentration risk in any one country • No material impact to date
Supply chain exposure	<ul style="list-style-type: none"> • Rigorous monitoring of supply chain exposure • Diversified supply chain in place and geographically diversified portfolio mitigates the exposure to this risk • SNC-Lavalin performance remains strong (10% portfolio value exposure)
Brexit	<ul style="list-style-type: none"> • BBGI remains fully committed to availability-based investment strategy. This generates stable, predictable cash flows backed by secure, highly visible contracted public-sector revenues and significantly, carry no exposure to demand or regulatory risk. While the Brexit outcome remains uncertain, regardless of the outcome, the Group's portfolio cash flows are contracted and, unlike demand-based assets, are not sensitive to the performance of the wider economic environment
Political risk	<ul style="list-style-type: none"> • Focus on value-driven active asset management and prudent financial management can generate returns and benefits for all stakeholders, and not just for BBGI shareholders • UK political risk of nationalisation mitigated: <ul style="list-style-type: none"> • UK Government have committed to honour all existing PFI/PF2 contracts • Well-established relations with public sector clients • Diversified global allocation with 32% of portfolio NAV in the UK • Portfolio exposure to UK acute health assets less than 1% of NAV, with no similar assets identified in current pipeline • Nationalisation process is complex and burdensome with no further clarity provided by proponents of policy to date. Additionally, there are significant debt SWAP breakage and other costs to be paid as well as outstanding debt in the event of nationalisation. Project Company equity investors would need to be bought out, typically requiring a compensation payment. Generally, support for private sector investment in public infrastructure via the PPP procurement model remains strong in Continental Europe, North America and Australia

BBGI Results Presentation

Internal management

Internal management

BBGI is the only internally-managed LSE-listed equity infrastructure investment company

In-house management team

Alignment of interest

Ongoing charges of 0.89%²

Delivering economic value for shareholders

No NAV-based management fees

No acquisition fees

Lowest Ongoing Charges¹ of all listed equity infrastructure investment companies

No conflict of interest

Management team incentivised based on total shareholder return and NAV per share growth

No growth for the sake of growth – pricing discipline and no style drift

Full management focus, not distracted by other investment mandates

¹In comparison to latest publicly available information for all LSE-listed equity infrastructure companies as of 30 June 2019.

²Annualised estimate based on projected recurring costs.

BBGI Results Presentation

Market outlook & pipeline

BBGI view on market outlook

Under-investment in public infrastructure persists and constraints on public finance necessitates the involvement of the private sector

Primary and secondary markets still viewed as competitive

Style drift in the sector to higher risk asset classes continues

No appetite in BBGI to introduce higher risk asset classes

Sourcing off-market transactions through the Company's extensive network of market participants in Europe, North America and Australia

Participating in primary investment opportunities and bidding on new availability-based assets as part of public sector procurement processes including OFTOs

Strategic investment partnership with SNC-Lavalin provides attractive access point to build scaled position in North American PPP market and enhances visibility of pipeline opportunities in that region

Acquiring equity interests from co-shareholders in existing assets

Participating selectively in competitive sale processes

BBGI's pipeline

Availability-based projects

SNC-Lavalin pipeline assets – investment opportunities in excess of £150 million could result from the pipeline agreement

Asset	Sector	Estimated Asset Capital Value	Concession Length after construction completion
Confederation Line (Ottawa, ON)	Rail	C\$3.2 billion	30 years
Eglinton Crosstown LRT (Toronto, ON)	Rail	C\$9.1 billion	30 years
Highway 407 East Extension Phase I (Ontario)	Road	C\$1.2 billion	30 years
John Hart Generating Station (Campbell River, BC)	Energy	C\$1.1 billion	15 years
New Corridor for the Champlain Bridge (Montreal, QC)	Road & Bridge	C\$3.2 billion	30 years

Primary bidding opportunities

Region	Sector	Estimated Asset Capital Value	Expected Concession Length	Investment Status
North America	Road	£170 million	23 years	Shortlisted as one of three bidders
North America	Accommodation	£100 million	30 years	Shortlisted as one of three bidders
Continental Europe	Accommodation	£270 million	25 years	Shortlisted as one of three bidders
Continental Europe	Roads	£1.5 billion	25 years	Pre-qualification submitted on one project and agreement with industrial partners to bid on one road asset
UK	Road	£400 million	33 years	Shortlisted as one of three bidders
UK	OFTO	£2.7 billion	25 years	Shortlisted to bid for three assets

BBGI Results Presentation

Conclusion

Conclusion

Prudent, low-risk investment strategy continues to deliver long-term, predictable shareholder returns:

- 2.0% increase in NAV per share
- FY 2019 target dividend of 7.00p¹
- FY 2020 dividend guidance of 7.18p¹
- Strong cash dividend cover of 1.3x²
- Annualised shareholder return of 10.4% since IPO³

Sole pure-play availability investment platform & strong global diversification

Selective acquisition strategy has resulted in two follow-up investments in PPP-assets during 2019 with a total value of £57.4 million

Strong pipeline of further investment opportunities

Sole internally-managed investment company with highly experienced management team resulting in an annualised Ongoing Charges ratio of 0.89%⁴

¹This is a target/guidance only and is not a profit forecast. There can be no assurance that this target/guidance will be met or that the Company will make any distribution at all.

²Net operating cash flows / cash dividends paid for the period (see detailed explanation in interim report).

³On a compound annual growth rate basis. This represents the steady state annual growth rate based on share price at 30 June 2019 and after adding back dividends paid or declared since IPO in December 2011.

⁴Annualised estimate based on projected recurring costs.

Growth track record

NAV and number of assets

Demonstrated ability to grow responsibly

Strategic discipline in acquisition strategy and portfolio composition, with no style drift

Acquisitions of additional stakes in two availability-based PPP assets in H1 2019

ESG

Sustainable Development Goals (SDGs)

BBGI is tracking the United Nations General Assembly Goals

Responsible investment

Avon & Somerset Police Stations, UK

- Ongoing contribution to the Authority's Strategic Fit program
- Delivering real tangible outcomes that support the police and crime plan from the Authority
- Support the Authority's philosophy and strategy in the following areas: sustainability, environmental, improvement and value (innovation), corporate social responsibility, and business continuity
- Part of the plan is to provide labour and goods to support the Help Bristol's Homeless project

Staffordshire Fire Stations, UK

- Ongoing contribution to the Prince's Trust, reaching out to children, and young people in the Staffordshire and Stoke on Trent regions. 2019 goals:
- Aim to put young people through programmes and expect to see majority to go into education or training after their 12 weeks with CIC Safer Communities
- Secure funding to deliver six Get Started programmes enabling
- Deliver programmes across the county with the aim of increasing young people's confidence, communication and other skills

Victoria Prisons, Australia

- Sponsorship of YMCA's Rebuild Programme
- Programme focused on providing learning and skill development for young inmates
- Goal is to reduce recidivism rates

Canada Line, Vancouver

- Supporting clean, efficient and healthy transportation
- Servicing one of the busiest transportation corridors in Greater Vancouver
- Average weekday boardings in 2018 of 147,7001

Royal Women's Hospital, Australia

- Proactive approach to utilities conservation and management
- Upgrading the existing carpark lighting which will reduce CO₂ emissions by approximately 5,300 tonnes

Financial overview

Valuation approach

Discount rate	<ul style="list-style-type: none"> • Weighted average discount rate of 7.10% • Portfolio is 100% operational
Valuation verification	<ul style="list-style-type: none"> • Review carried out by independent professional third party valuer • Valuation assumptions sensitised and tested • Reviewed by KPMG as part of audit/review process
Valuation approach	<ul style="list-style-type: none"> • The Management Board is responsible for carrying out the valuation of the Company's investments which is presented to the Supervisory Board • Valuation is carried out on a six-monthly basis as at 30 June and 31 December each year • The valuation is determined using discounted cash flow methodology • The cash flows forecast to be received by the Company or its subsidiaries, generated by each of the underlying assets, and adjusted as appropriate to reflect the risks and opportunities, have been discounted using project-specific discount rates • The valuation methodology has not changed since the IPO in 2011

NAV per share movement

2.0% NAV per share increase over the six month period ending in 30 June 2019

Dividend paid in period was in line with forward guidance

Oversubscribed capital raise in June 2019

Robust market activity continues to drive asset pricing increases

Active asset management led to an increase asset performance through identifying value enhancements and hands-on operations

Value accretive investments bring further growth to NAV

¹ Performance is a net effect of distributions, unwinding of discount and other movements.

Construction de-risking

Value enhancement via construction management

Construction de-risking resulted in significant NAV growth of c. 5.4%¹

2013: +0.6%	<ul style="list-style-type: none"> M80 motorway reaches stable operation Northwest Anthony Henday moves closer to stable operation

Appreciation of Sterling against the AUD and EUR

Depreciation of Sterling against the CAD, NOK and USD

Net effect of exchange rate movements on the NAV over the period: £9.6 million

FX impact on portfolio value since IPO in December 2011: £0.9 million (0.1% of NAV at 30 June 2019)

Diversified currency exposure

Financial overview

Credit risk management

Country	Number of assets	% of portfolio	S&P rating	Moody's rating
 Canada	13	35%	AAA	Aaa
 UK	21	32%	AA	Aa2
 Australia	3	12%	AAA	Aaa
 USA	1	9%	AA+	Aaa
 Netherlands			AAA	Aaa
 Norway	10	12%	AAA	Aaa
 Germany			AAA	Aaa

Top 5 projects	Public sector counterparty	% of portfolio	S&P rating	Moody's rating
Golden Ears Bridge	Translink	10%	AA (DBRS)	Aa2
Ohio River Bridges	Indiana Finance Authority (IFA)	9%	AA+	Aa1
Northern Territory Secure Facilities	Northern Territory	7%	N/A	Aa3
McGill University Health Centre	McGill University Health Centre	5%	A+ (DBRS)	Aa2
A1/A6 Motorway	Ministry of Infrastructure and Environment	5%	AAA	Aaa

All assets are located in AAA to AA rated countries, including Australia, Canada, Germany, Netherlands, Norway, UK and US

Public sector counterparties on all assets either have strong investment grade ratings or are government-backed:

- In the UK, local authorities procuring PPP projects may benefit from central government backing
- In Canada, counterparty ratings range from A+ to AAA by S&P and DBRS, and from Aaa to Aa3 by Moody's
- In Australia, counterparties are rated AAA / Aaa and Aa3
- In US, counterparty rated AA+/Aa1
- In Netherlands, local authorities procuring PPP projects may benefit from central government backing
- In Norway, counterparty is rated AAA/Aaa
- In Germany, benefit of legislative support from the Republic of Germany rated AAA/Aaa

Risk management

Operational gearing

Operational gearing typically lower in availability roads & bridges than social infrastructure assets

Lifecycle costs¹	c. 18% of construction cost over concession	c. 45% of construction cost over concession
Lifecycle spending¹	c. 2-3 consolidated main interventions	Several interventions with more even distribution over operating period
Operational cost¹	c. 1.4% p.a. of construction cost	c. 3.4% p.a. of construction cost
Maintenance profile	Fewer maintenance groups – less complex coordination	Many maintenance groups – complex coordination and organisation of maintenance and replacement work
Client interaction	Client is not the main user of the asset and has fewer interfaces	Client is the user of the asset with day-to-day exposure

¹Analysis based on assets within the BBGi portfolio, percentages are based on 2018 operational and lifecycle cost compared to original construction cost.

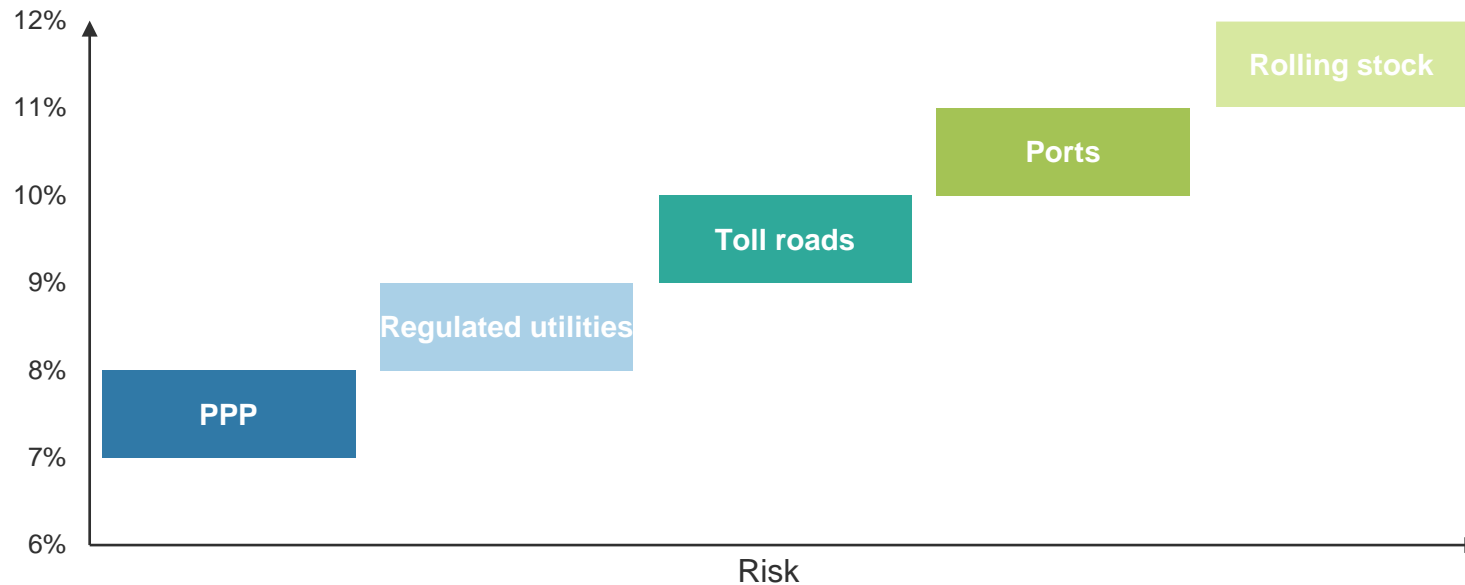

Financial overview

Debt financing

<p>Company level</p>	<ul style="list-style-type: none"> • In January 2018, new four-year revolving credit facility of £180 million with a further accordion tranche of £70 million from ING, KfW and DZ Bank AG • Borrowing margin 165bps over LIBOR / Tenor of four years, commencing in January 2018 • Financial flexibility to pursue suitable new primary and secondary investment opportunities as and when they become available due to further £70 million incremental accordion tranche - no commitment fees to be paid • At 30 June 2019, the Group had utilised £66.9 million of the £180 million existing RCF, subsequently paid down
<p>Project level</p>	<ul style="list-style-type: none"> • Northern Territory Secure Facilities project is the only asset that requires refinancing • All other projects have long-term non-recourse debt in place, which will not require refinancing

Risk & return of infrastructure asset classes

Return requirements – recent history

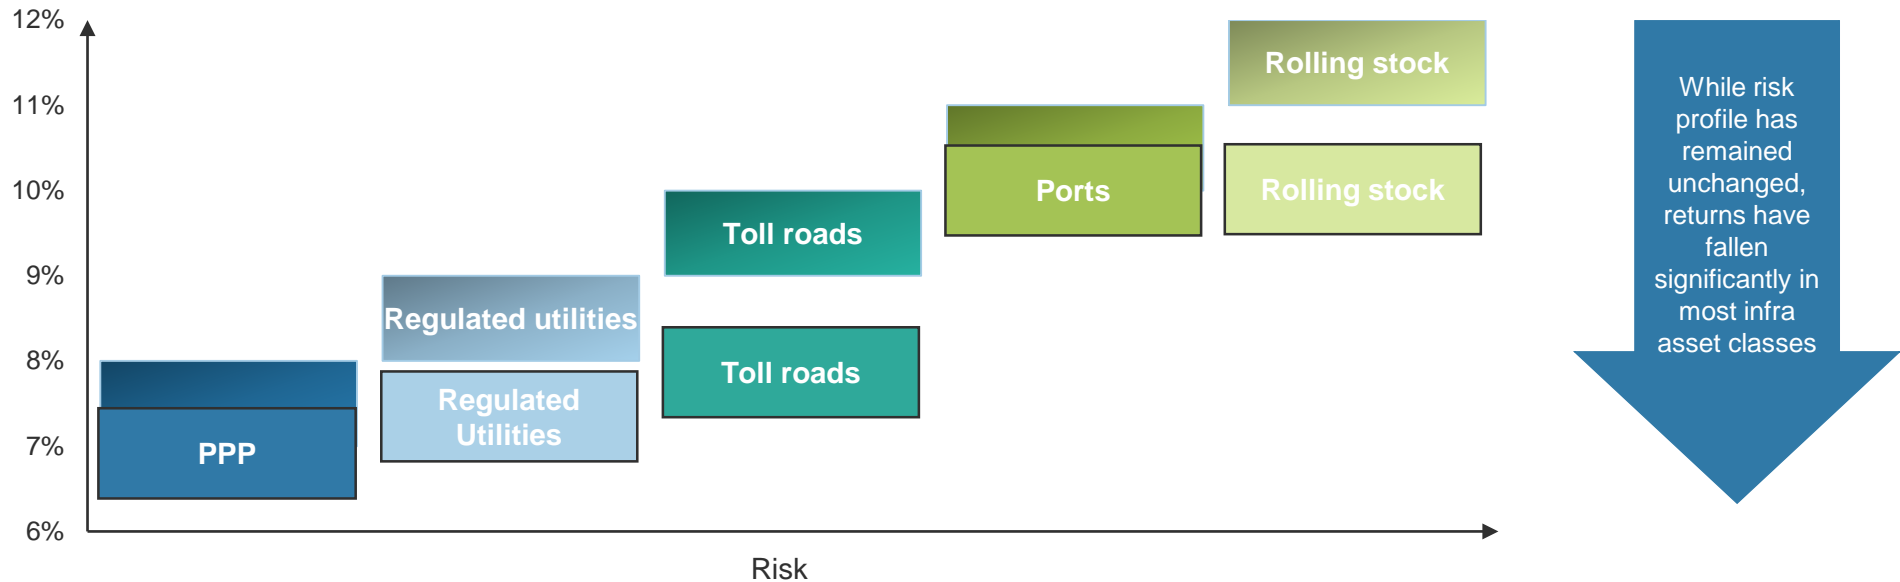

PPP has always been at the low end of the risk spectrum – availability-based, long term government or government backed revenues

Regulated Utilities, Toll Roads, Airports and Rolling Stock attracted higher returns to reflect the increased risk profile

Risk & return of infrastructure asset classes

Return requirements – current

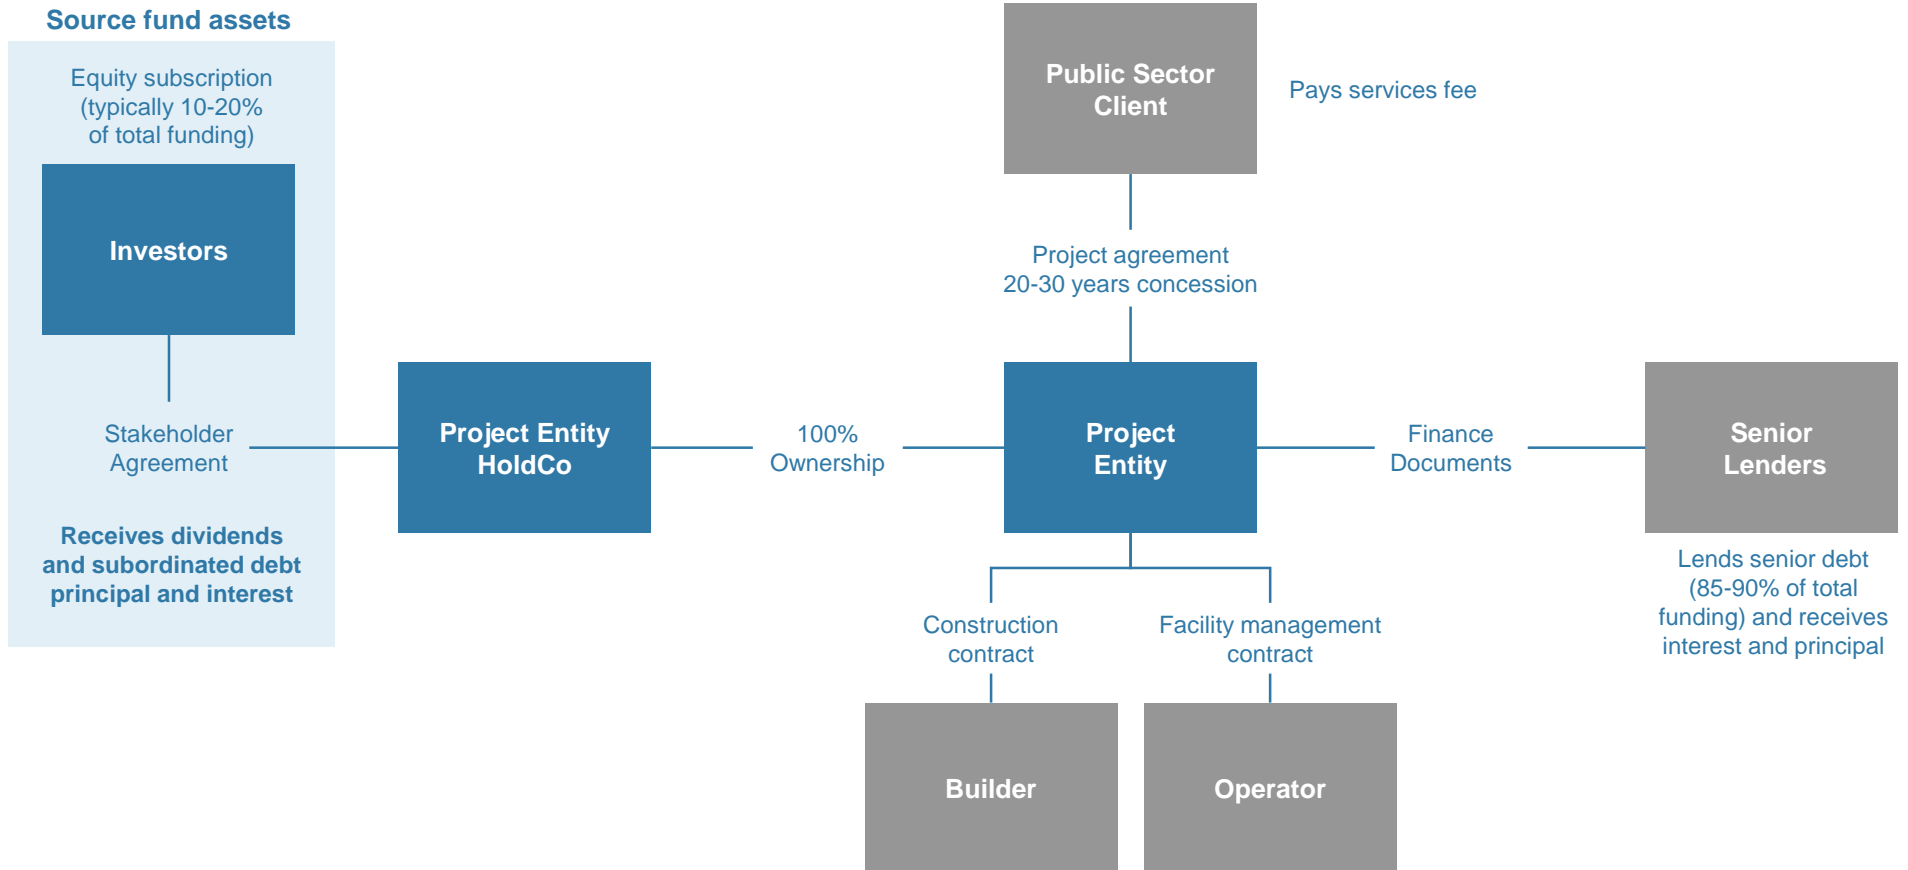

Overall returns for PPP assets have remained reasonably stable in the last couple of years; recent transactions suggest lower rates of return, especially for large assets or portfolio transactions

Some infrastructure investment companies investing in both PPP and regulated utilities and toll roads with return profiles similar to PPP/PFI assets. According to a recent PwC study¹ returns have fallen significantly and are as low as 7% for regulated assets and 7.5% for toll roads

Return requirements for ports and rolling stock have also reduced but more moderately

PPP overview

Typical ownership structure

PPP sector differentiation¹

BBGI PPP sector exposure towards the lower end of the risk spectrum

Higher risk

Acute hospitals

Acute hospitals are more complex buildings due to 24/7 operations and interventions are more challenging and politically most sensitive

Prisons

Prisons are more complex buildings due to 24/7 operations and interventions are more challenging

Education

Educational buildings typically have hard and soft FM obligations; 5 days a week operation

Primary healthcare centres

LIFT (local primary health care centres) typically simple two to three storey buildings and only have hard FM obligations

Lower risk

Roads & bridges

Roads & bridges O&M obligations are typically simple and straight forward

¹This is a simplified assessment of PPP sector risk and actual risk profile may be different depending on the facts and circumstances.

PPP overview

Typical cashflow profile

Construction phase	Income phase	Capital repayment phase
Construction risk No income	Cashflow from interest on and repayment of subordinated debt and equity dividends	Increased equity distributions once debt is repaid
As projects reach construction completion, risks associated with the cashflows decrease and so does the discount rate applied to these cashflows	Once operational, cash flows from PPP/PFI projects are very predictable	As the end of the concession approaches, payments to investors are a return of capital

Co-CEOs

Frank Schramm
Co-CEO

Frank Schramm has been co-CEO of BBGI from inception and was actively involved in the establishment and IPO listing of BBGI in 2011 and the subsequent growth from 19 assets at IPO to 48 assets currently.

Mr Schramm has worked in the infrastructure sector, investment banking and advisory business for over 23 years.

As co-CEO of BBGI, he is responsible for overall strategy and management of the Company. He is one of three members of the Management Board, and sits on the Investment Committee. Additionally, he is a shareholder representative or holds directorships in key assets of BBGI.

Duncan Ball
Co-CEO

Duncan Ball has been co-CEO of BBGI from inception and was actively involved in the establishment and IPO listing of BBGI in 2011 and the subsequent growth from 19 assets at IPO to 48 assets currently.

Mr Ball has worked in the infrastructure sector, investment banking and advisory business for over 30 years.

As co-CEO of BBGI, he is responsible for overall strategy and management of the Company. He is one of three members of the Management Board, and sits on the Investment Committee. Additionally, he is a shareholder representative or holds directorships in key assets of BBGI.

Supervisory board

Colin Maltby
Independent Chairman
of the Supervisory
Board

Colin Maltby has been involved in the financial sector since 1975 when he joined NM Rothschild's international currency management department. Between 1980 and 1995, he held various roles at Kleinwort Benson Group plc, including as a Group Chief Executive at Kleinwort Benson Investment Management, as well as a Director of Kleinwort Benson Group plc.

From 1996 to 2000, Mr Maltby was Chief Investment Officer at Equitas Limited, and from 2000 to 2007, he worked for BP, as Chief Executive for BP Investment Management Limited and Head of Investments for BP plc. Since 2007, he has served as advisor to institutional investors and as an Independent Non-Executive Director of several listed companies. Mr Maltby was Senior Independent Director until 31 August 2018, when he became Chairman.

Mr Maltby holds MA and MSc degrees from Oxford University and has been a member of the Chartered Institute for Securities and Investment since its formation in 1992.

Jutta af Rosenberg
Independent Director
and Chair of the Audit
Committee

Jutta af Rosenberg has extensive experience in management and strategy derived from senior operational roles in a number of companies and vast experience with group finance and auditing, risk management, merger & acquisitions and streamlining of business processes.

Ms af Rosenberg serves as an Independent Non-Executive Director on several listed companies. Ms af Rosenberg served as the Chief Financial Officer, Executive Vice President of Finance and IT and Member of Board of Management at ALK-Abelló A/S until 2010. Prior to this, Ms af Rosenberg served at Chr. Hansen Holding A/S as its Vice President of Group Accounting from 2000 to 2003. From 1978 to 1992, she worked for the Audit Group at Deloitte.

Ms af Rosenberg was appointed to the Supervisory Board on 1 July 2018 and became Chair of the Audit Committee on 31 August 2018.

Ms af Rosenberg obtained a certificate in Business Administration from Copenhagen Business School in 1982 and gained an MSc in Business Economics and Auditing from Copenhagen Business School in 1987 and qualified as a state authorised public accountant in 1992.

Howard Myles
Senior Independent
Director

Howard Myles began his career in stockbroking in 1971 as an equity salesman, before joining Touche Ross in 1975 where he qualified as a chartered accountant. In 1978, he joined W. Greenwell & Co in the corporate broking team, and in 1987 moved to SG Warburg Securities where he was involved in a wide range of commercial and industrial transactions, in addition to leading Warburg's corporate finance function for investment funds. Mr Myles worked for UBS Warburg until 2001 and was subsequently a partner in Ernst & Young LLP from 2001 to 2007, where he was responsible for the Investment Funds Corporate Advisory team.

Mr Myles was Chairman of the Audit Committee until 31 August 2018, when he became Senior Independent Director.

Mr Myles holds an MA from Oxford University. He is a Fellow of the Institute of Chartered Accountants, a Fellow of the Chartered Institute for Securities and Investment, and a Non-Executive Director of a number of listed investment companies.

Sarah Whitney
Independent Director

Sarah Whitney has extensive experience in the real estate and finance sectors. She was a corporate finance partner at PricewaterhouseCoopers. She set-up and led the Government & Infrastructure Team at CB Richard Ellis, and was Managing Director of the Consulting & Research business at DTZ Holdings plc (now Cushman & Wakefield).

For the last 15 years, Mrs Whitney's career has been focused on the provision of consultancy services to national and local governments, investors, and real estate companies on matters pertaining to real estate, economics, infrastructure and investment. Her early career was spent as an investment banker advising major corporates on M&A transactions.

Mrs Whitney is Treasurer of University College London, and holds appointments as a Trustee and Chair of the Investment Committee of the Canal & River Trust, and Trustee and Chair of the Audit Committee of the Land Trust. Mrs Whitney has a BSc in Economics & Politics from the University of Bristol, and qualified as a Chartered Accountant in 1988. She is a Senior Visiting Fellow at the University of Cambridge.
